#### Announcement 1-2023

### Introducing The New Scientific Members” Editorial Board” and the new Special Issues

**Mohammed K. Salama**

---

IUSRJs members are pleased to publish this special issue in order to spread the knowledge from various domains using a research technique in which tools from different sciences and disciplines are used to find an explanation for the question being studied. The number and quality of the submissions indicate the growing importance of the topics to both researchers and human life. As stated by the special issue editors.

IUSRJs express their gratitude to the editors of the IUSRJs. Special issues remain an essential facet of IUSRJs as IUSRJs bring focus to emerging or understudied topics in the domain. Later this year, IUSRJs will publish a special issue Q1 to publish papers from different areas to rise the importance of researchers’ co-operation from different areas, for that to improve the Peer Review Process the need to welcome a new scientific member from different area of interest to join the IUSRJs’ Scientific team There is still limited time (1 March 2023) to submit your work for the special issue on (see <https://www.iusrj.org>). IUSrjs’ (the International Uni-Scientific Research Journals) are grateful for the efforts and talents of the many guest editors in the development of the special issues. IUSRJs gratefully acknowledges the authors and the reviewers of articles in both the regular and special issues and especially to the authors who choose IUSRJs’ as a trusted area to share the valuable work of their research. IUSRJs' recognize the value of the Editorial Board, both the current members and the new members, all of high community standing.

The new board composition covers a wide range of research contexts, topics, and methods. The contexts covered range from a wide area of interest from Humanities, Social Science, Law, Engineering to specific industries, such as information technology and automotive. Interests cover a wide range of topics, including strategy, innovation, complexity, systems thinking, knowledge, education, science, Circuits, technology as well as communication and networks, in addition to the traditional topics of Humanities and engineering,

<https://doi.org/10.59271/iusri.doai202301000000>

leadership, governance, and project methodologies. Moreover, some board members specialize in cross-topical subjects, such as Biomedical, Medicine, quantitative, and mixed, as well as traditional and contemporary research methods, or simulation models. The list is not exhaustive, as it only shows those areas that are of most interest to the individual board members. There are many more topical areas covered, which are not listed here.

**A brief introduction to each member of the new Scientific members as follows:**

- Prof. Dr. Shekhar Suman Borah, Indian Institute of Information and Technology, interesting in Analog VLSI, Current-Mode Circuits, Memristors.
- Dr. Mohammed K. Salama, Cairo Uni, Embedded System, RF, analog and digital IC Design, computer Architecture, Coding, ML, DL and AI.
- Prof. Dr. Amer Shebl Zaia, University of Batna-1-Hajj Lakhdar Economic Sciences, Business and Economics.
- Prof. Dr. Fatiha. Yahia, University of Batna-1-Hajj Lakhdar Clinical Psychology, Child and Adolescent Psychopathology, Educational Sciences and Artophobia.
- Dr. Miloud El-Rahali, Center for Research and Policy Analysis, Development of Social Studies - Sustainable Development.
- Prof. Dr. Rabie AbdRouf Mohammed Amer, King Khalid University - Kingdom of Saudi Arabia, Special Education - Intellectual Disability.
- Dr. Taher T. Jaziri, College of Arts and Sciences, University of Hail, Language, Literature and Arab Civilization.
- Prof. Dr. Sherin Hassan Zaydan, Imam Abdul Rahman Bin Faisal University, Dammam, Department of Self Development - Deanship of Preparatory Year and Support Studies.
- Dr. Mustafa M. Buhbouh, Faculty of Arts and Human Sciences - Mohammed I Uni, Arts and Human Sciences.
- Dr. Abderrahim A.Najih, Cadi Ayyad University, Arts and Human Sciences.

<https://doi.org/10.59271/iusri.doai202301000000>

- Dr. Elham M. Al-Anani, Ain shams University, Manufacturing technology and comfort properties of microfibers multi-layers garments, Chemical modification of cotton fabrics to impart antimicrobial properties and its application in clothing technology, home economic-textile and clothing.
- Prof. Dr. Ali Aboudi Nima Al-Jubouri, University of Kufa, Iraq, Business Administration.
- Prof. Dr. Elham Sleim El Khatrey, International Islamic University Malaysia, Creative thinking, psychology of leaders, and Crisis Management" for administrative and supervisory functions.
- Prof. Dr. Misa Ali Ahmed El-Rawabdeh, Balqa Applied University Islamic studies.
- Dr. Saber M. Freiha, Faculty of Humanities and Social Sciences -Tunis Media, Sociology, Humanities and Social Sciences.
- Prof. Dr. Soudani A. Abdelkader, University of Sfax Modern Political History, Humanities.
